

Dear Opportunity Project Family,

It is with a heavy heart that I write to inform you about the passing of our beloved former Executive Director, Carol Albanese. Carol served our organization for almost 2 decades, and her contributions were invaluable- but her love and support of OP, our community and members is most memorable.

Carol led our organization with unwavering dedication and compassion. Her vision helped to shape many of our key initiatives that support our members and their families. Under her leadership, we moved into our beautiful new building at 60 East Willow Street, we expanded our resources, developed impactful programs, and fostered a community where people with brain injuries felt understood and supported. This included forging many relationships with organizations and the Township of Millburn, in support of the Opportunity Project mission. Carol's door was always open and a member was always sitting across from her chatting. Her passion and commitment transformed countless lives.

Our thoughts and prayers are with Carol's family during this difficult time. We are grateful for her legacy and her profound impact on our organization.

Sincerely,

Kerri Berson Levine
Interim Board Chair
